

Oracle MICROS Tablet E-Series

Oracle MICROS Tablet E-Series is an ultramodern, tablet-based mobile solution that blends a rich user experience, enterprise-grade hospitality software, and lower-cost devices with extended battery life. To deliver a fluid, elegant touchscreen experience to hospitality operators, Oracle MICROS Tablet E-Series runs Oracle Hospitality Symphony Cloud Service, Oracle Hospitality Symphony First Edition Cloud Service, or the Microsoft Windows 8.1 Embedded Industry operating system (OS). The solution offers a highly customizable experience, enabling any staff member to perform multiple activities from one device. Transform your business with new revenue models, new ways of communicating with customers, and new ways of inspiring employees.

KEY FEATURES

- Unmatched performance and external connectivity
- Revolutionary new look
- Interchangeabilities free you from the restraints of typical tablet implementations

KEY BENEFITS

- Deliver top-notch service to your guests straight from the hands of your staff
- Improve staff productivity with ease of servicing and payment
- Improve managerial productivity
- Create additional revenue-generating opportunities

A Next-Generation Tablet Experience

Developed in collaboration with Microsoft and Intel, Oracle MICROS Tablet E-Series with the new Engagement feature provides a new set of visually stimulating app experiences and advanced capabilities that significantly raise the bar for modern point-of-sale systems. With it, you can increase efficiency and productivity, enhance operations, and control costs.

A New Way of Interacting

- Highly animated, interactive, and configurable
- Consistent experience across devices
- Increased productivity and superior experiences for employees and customers

Figure 1. Oracle MICROS Tablet E-Series provides interactive screens for employees and customers.

The Welcome Experience

- Replace traditional login screens that are visible to the customer with engaging content.
- Go mobile with clienteling by showing specials of the day, publicizing upcoming customer events, and taking orders.

Figure 2. Engaging content replaces standard login screens.

The Manager's Hub

- Access sensitive data, analytics, and tools.
- Manage restaurant waiting lists and reservations.
- Track and manage metrics such as sales and costs.

Figure 3. The Manager's Hub dashboard provides quick, easy-to-read access to data and metrics.

The Technology

- Available in an 8-inch handheld version designed with on-the-go staff in mind.
- Available in an 11-inch version that is both fully mobile and fully compatible with Oracle MICROS E-Series Base Station.
- Optional sleeve for both versions facilitates payments.
- Newest technologies packaged in a multiuse and sleek form factor to provide all-day performance on a reliable tablet device.
